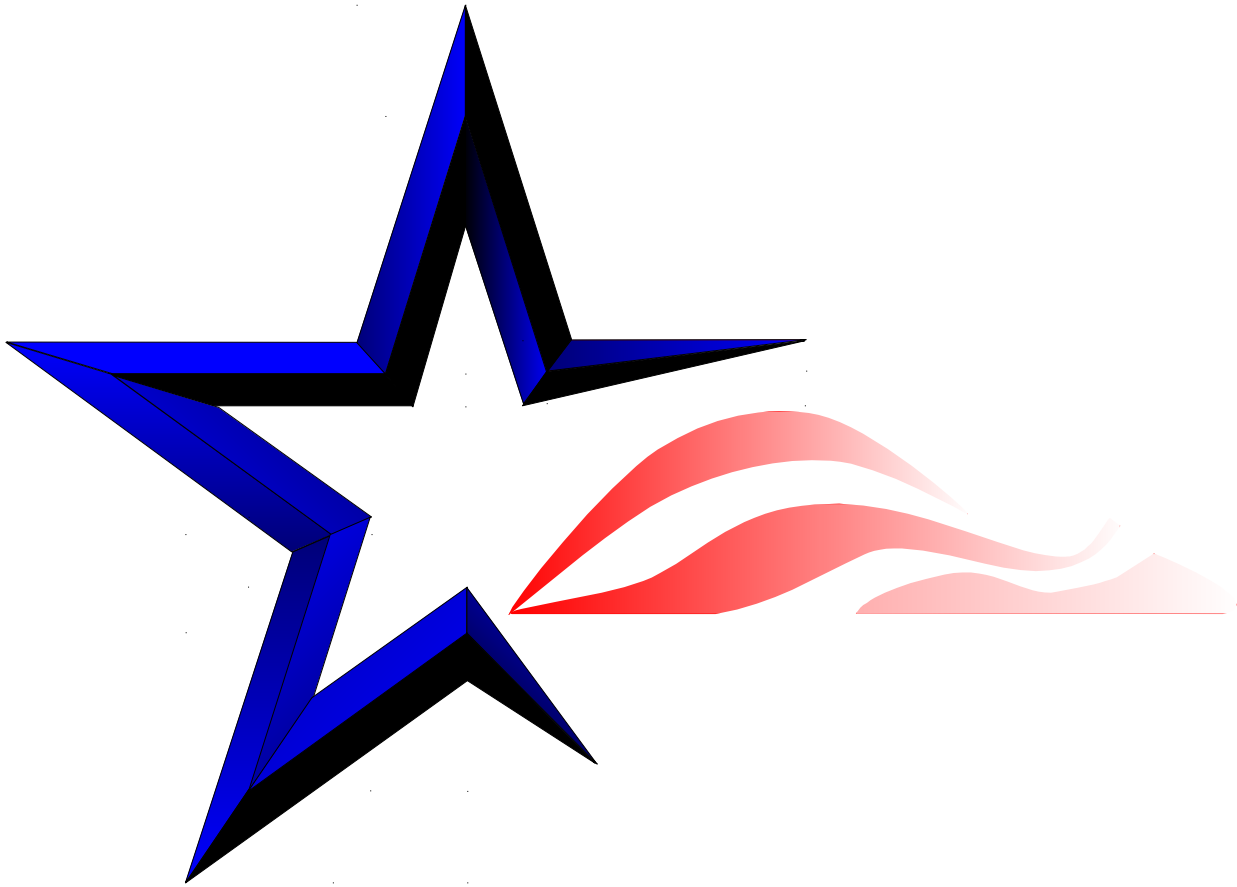
Specialty Career Path



Specialty Career Path (SCP)

- **SCP provides an alternative to the traditional command career path and supports the demand for expertise in the following mission areas throughout the Fleet:**

Anti-Submarine Warfare (ASW)
Anti-Terrorism/Force Protection (AT/FP)
Education & Training Management Systems (ETMS)
Financial Management (FM)
Mine Warfare (MIW)
Missile Defense (MD)
Naval Operational Planner (NOP)
Operations Analysis (OA)
Shore Installation Management (SIM)
Strategic Sealift (SS)

- **The SCP pi to designated SCP billets, improved career predictability, and the potential to screen for SCP CO/XO milestone billets.**

History of the SCP Program

- **SWO Specialty Career paths approved in 2004 (6 disciplines)**
- **First SWO Specialty Career Path board conducted in Jan 2005**
- **PERS 43 assigned lead within PERS 4 in April 2007 for SCP expansion to URL**
- **First URL SCP Selection Board held June 2010 (10 disciplines)**
  - Added 4 additional disciplines (FM, OA, NOP, ETMS)
- **MILPERSMAN released in August 2011**
  - Provides guidance for SCP Officer Assignments
  - PERS-41 designated as SCP Coordinator for PERS-4

What We Desire to Achieve

- **A cadre of warfare qualified officers who can provide experience and expertise in disciplines that are critical and highly desired by the Navy.**

- **Improved career predictability for selected officers as SCP will provide meaningful, progressive career options within critically important sub-specialties.**

- **Officers who can fill required Warfare Enterprise billets, including sea duty, while remaining viable within their community and Specialty Career Path.**

Unclassified

What SCP is Not

- **SCP is not a new designator. SCP selectees will remain in their current community.**
- **SCP selection does not guarantee exclusive assignment to SCP billets. Rotation dates, needs of the Navy, and career progression will continue to affect the assignment process.**
- **SCP is not a way to avoid sea duty or required community milestone tours. SCP will still allow for normal community sea/shore rotations (may not always be in SCP billets).**
- **SCP billets are not exclusive to SCP officers and most will ultimately be filled by non-SCP Officers due to inventory (per the current guidance of a 4:1 billet-to-body ratio).**
- **SCP is not a manpower draw from the enterprises. Many enterprise billets require skill sets resident within SCP.**

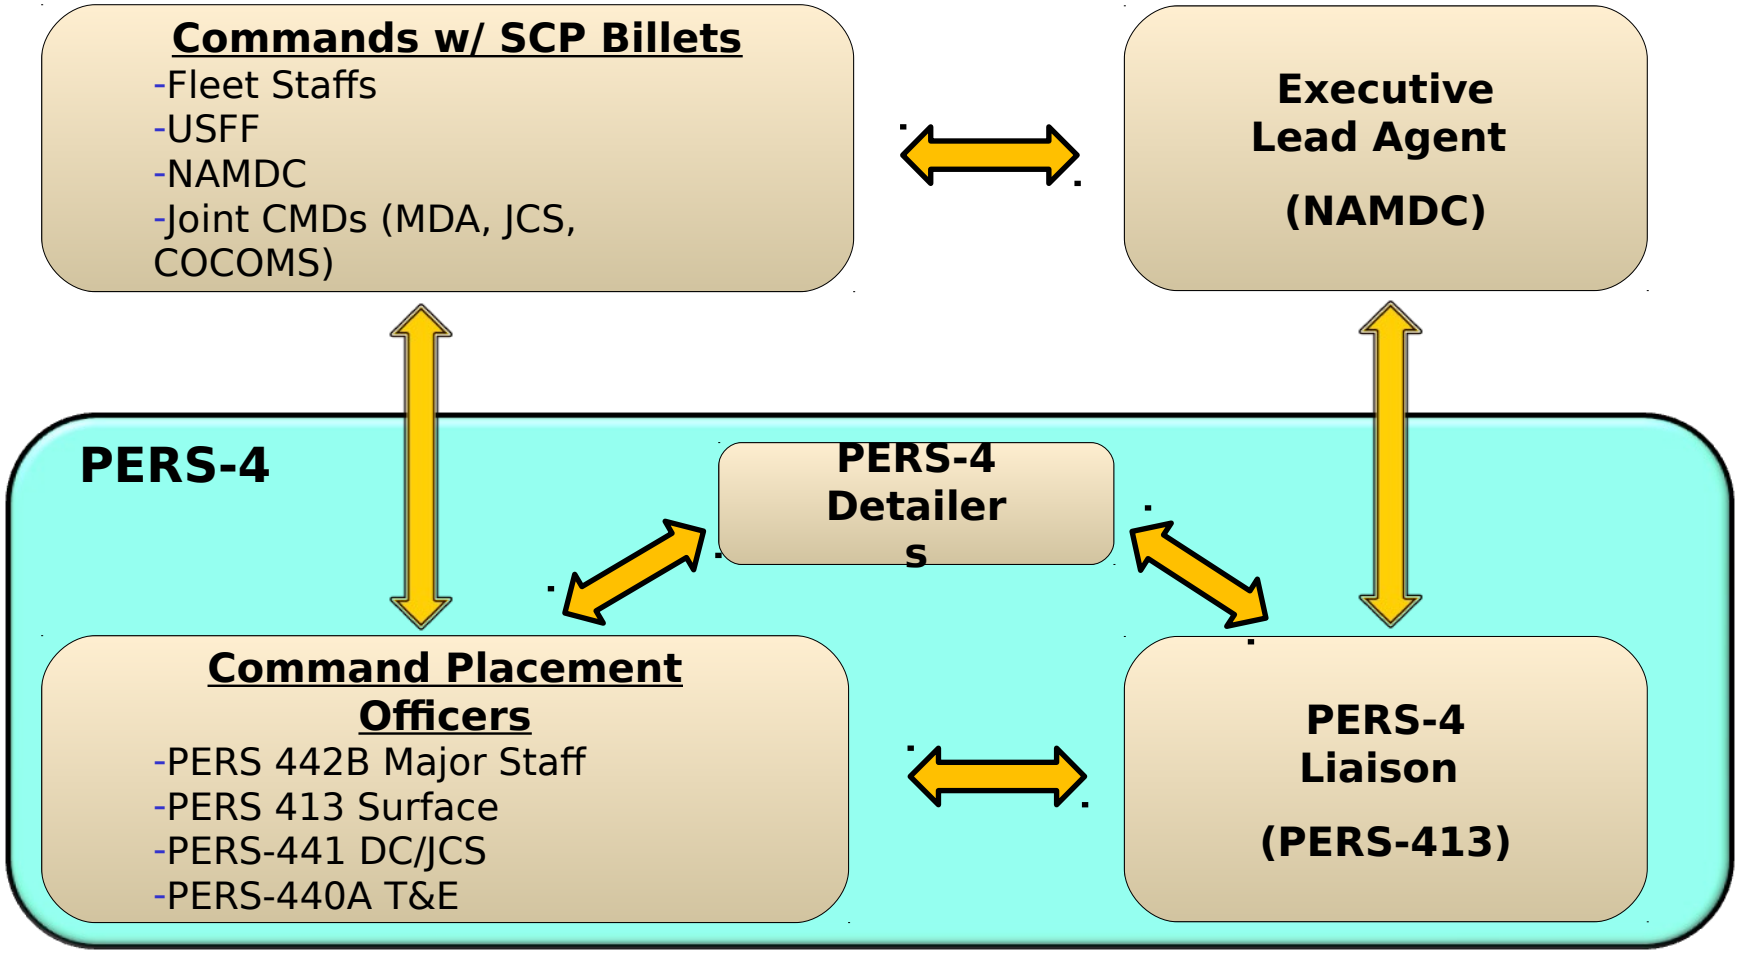
SCP Stakeholder Roles

- **Executive Lead Agents (ELAs)**
  - Develop and maintain billet base for each SCP discipline
  - Define any training requirements
  - Provide recommendations for SCP Selection Board guidance
- **PERS-4 Directorate Liaisons**
  - Single point of contact for respective SCP ELAs
  - Ensure proper billet coding and billet allocation
- **Command Placement Officers**
  - Represent individual commands containing SCP billets
- **SCP Detailers**
  - Work with SCP Officers to provide career advice and assign SCP Officers into SCP billets as timing and availability supports

Unclassified

Relationships & Responsibilities

Example: Missile Defense



MILPERSMAN 1301-233 defines interface between organizations

SCP Executive Lead Agents (ELA)

Discipline	Command	Liaison Directorate
MD	Navy Air & Missile Defense Command	41
ATFP	U.S. Fleet Forces Command	41
ASW	Navy Mine & ASW Command	42
MIW	Navy Mine & ASW Command	41
SIM	Commander, Navy Installations Command	43
SS	Commander, Military Sealift Command	41
FM	ASN Financial Mgmt & Comptroller	44
NOP	OPNAV N3/N5	44
OA	OPNAV N81	44
ETMS	Naval Education & Training Command	43

ELAs work with designated PERS-4 Liaisons to manage the billet base within their respective specialties

SCP Selection Board

- **SCP Selection Board & Application Notes**
  - The maximum number of selects will be determined by discipline health and expected attrition for each mission area
  - Officers may apply for up to two SCP disciplines
  - A command endorsement is required with your application
  - Any board correspondence desired to be made available to the board must be declared in a cover letter as an enclosure
- **Additional Board Actions**
  - SCP-CO and SCP-XO bank officers will be reviewed for continued fitness to serve in a milestone billet
  - All previously unselected LCDR SCP Officers in each discipline will be considered for selection as SCP-XO
  - All previously unselected CDRs, qualified for command IAW CNSP/CNSL 1412.2A, will be considered for selection as SCP-CO

SCP-XOs must be fully qualified for Command IAW CNSP/CNSL 1412.2A prior to being SCP-CO Board Eligible

Eligibility Requirements

- **Designator Specific Requirements:**
  - 1110: Upon completion of a first Department Head tour, or upon completion of the first 18 months of a single longer DH tour.
  - 1120: After final look for Executive Officer and not serving or required to serve in Submarine Support Assignment as determined by the Officer Community Manager.
  - 1310/1320: Upon completion of a DH tour or failure to select for a DH tour for the second time.
- **Officers not eligible for this program:**
  - Full Time Support (FTS) Officers
  - Officers currently being processed for ADSEP
  - Officers who have been DFC'd (or are a subject of a pending DFC)
  - Officers who have submitted a retirement or resignation request (an approved request for withdrawal is required)

Please refer to the relevant NAVADMIN for latest guidance on SCP Board application and eligibility guidance

Selection as SCP

- **Officers are eligible for SCP detailing upon completion of current tour (unless milestone/payback tour is required).**

- **SCP Officers are ineligible for consideration for traditional USN Commanding Officer.**
  - **Surface Warfare SCP Officers will not be eligible for consideration at the XO/CO Fleet-Up Board**

- **Selection as SCP does not relieve an officer of any other pending milestone (if already screened) or payback tours.**
